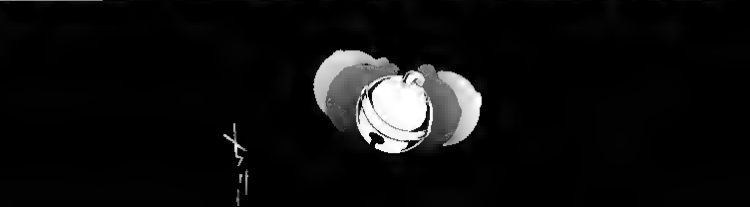
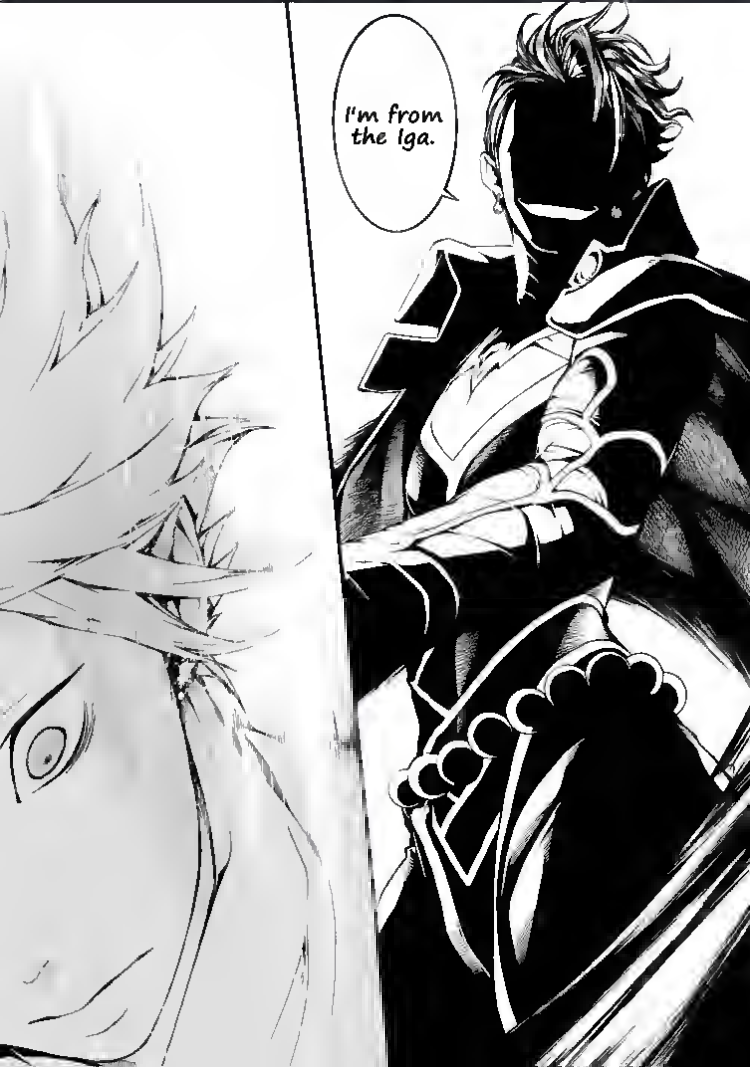
Chapter 5: Orochi, living through the legend (part 3)



!!?
Wha...!
What's going on? It's hard to breathe.
huff
My body's heavy
huff
huff
It feels like someone is grabbing a hold of my heart.

What a peculiar hair color.

!!?
However, it's lacking in moisture
You're out in the sun too much.
twirl
Who are you?
Name yourself.



I'm from the Iga.

What!?
I'm not going to kill you
You're a "vessel" candidate, after all.

By vessel, do you mean the Orochi vessel!?
Wa- wait...
Are you after the cursed Orochi too!!?
Hey!

……
Sakichu!
What's wrong!? Are you alright?
Y-yeah…

Iga....

Kunitomo has managed to calm down.
Those who took part in the rebellion have been reported and are behaving now.
I'm so glad no one was hurt
Though someone blew up part of the village
I see.

Just like Sakichi said, I was running away
Somewhere in my mind, I thought "why me?"
And now?
I can live proudly as long as I have them
Hm, it's easy to just say things without meaning them though
I will also devote my everything to serve Boss

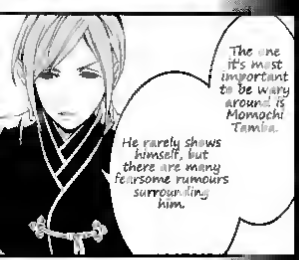
You really helped us out
Nii-san
Heh, I don't dislike that about you, Sakichi
The Kunitomo will definitely return this favor
That's very reliable
We will assist you
Please rely on us if you ever need to

Disappeared?
Together with the Iga ninja I caught.
What happened to Yuusei?
Yeaaaah, he disappeared.
Father is alive.
I don't doubt that he will attack us again.
What worries me is that he said that he "joined forces with them" instead of saying he hired them.
Iga considers the Kunitomo a hindrance right now.

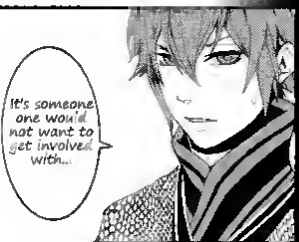
Wasn't Kumano's shinobi of the Iga as well?
The Iga will serve anyone as long as they get paid.
Iga.....
Shinobi are like a convenient tool
It's the three branch families that unifies the Iga.
They're powerful ninja that any military commander or organization would want to have on their side.
You mean the three grandmasters of Iga?
But the three masters are different
They're famous.
You know of them?

Head of the Fujibayashi clan,
Fujibayashi Nagato-no-kami.
Head of the Hattori clan,
Hattori Hanzou.

The three...
grand-masters of Iga...



The one it's most important to be wary around is Momochi Tamba.
He rarely shows himself, but there are many fearsome rumours surrounding him.



It's someone one would not want to get involved with...

and the
Momochi
clan head,
Momochi
Tamba.

You guys,
Why're you gathered at our place?
shouldn't you talk about that somewhere else?
Leave.
And besides, people rarely come here, so it's quiet.
There might still be enemies at Kunitomo
Wind, me?
Sakichi suggested it.
Don't just go with the flow, dammit.
I don't really know either...

Look, they're calling for you
boooooss!!
Yes, they are a group that get energetic at big spaces
Though there are traps set up
I guess.
kyaaaaaaa
Todaaaaaaa!!!
I have not forgiven you
Please don't come close to our boss ever again.
What's up with him?
Tight-knit people are scary~

that the twins were the key to the Dokuro-Hoozuki after all
Please tell my lord,
Kino-suke
Yeah?
Most likely, it is the twins themselves that are the Dokuro-Hoozuki
It's very close to you
They will know the "Orochi Vessel".
